

4 modes

- Digital display function
- Piano key design
- Gun Grey Color Matching

Beauty strength.
faction, easy to recognize icon knob.
Don't worry about choose the wrong mode again.

One can meet multiple functions

Eight core technologies to meet good life

TOP SPRAY

Whole body shower

AIR ENERGY TECHNOLOGY

Water and gas mix for gentle care

HAND SHOWER

Convenient to use

HOT & COLD

Locking temperature

WATER-SAVING TECHNOLOGY

water saving

BRASS BODY

Gravity casting

LIFTABLE ROTATION

Height can be adjusted from left to right

VALVE CORE

Ceramic

Oxygen enriched waterdense rain

Air pressurization, every drop of water is injected with air energy
Let water "live"

Air energy water flow

Air injection, The water drops are full, Massage feeling, More water saving

Ordinary flow

Under the water, it hurts the skin and wastes water

Spiral liquid silica gel Each one is soft

With a 0.5MM fine small aperture, the powerful booster jet is more powerful,
the water spray is crystal clear,
and it is dense and sufficient without tingling,
and can also enjoy the shower under low water pressure.

Spraying area
Water distribution

Pressurized hand shower

The water outlet is equivalent to a top spray

Pressurized hand-held shower

Strong pressurization, More powerful injection
The water spray is crystal clear, dense and sufficient without tingling

Press
to switch modes

Three water outlet modes
can be easily switched
with one button

Air pressurization

Food-grade liquid silicone nozzle

3 modes hand shower

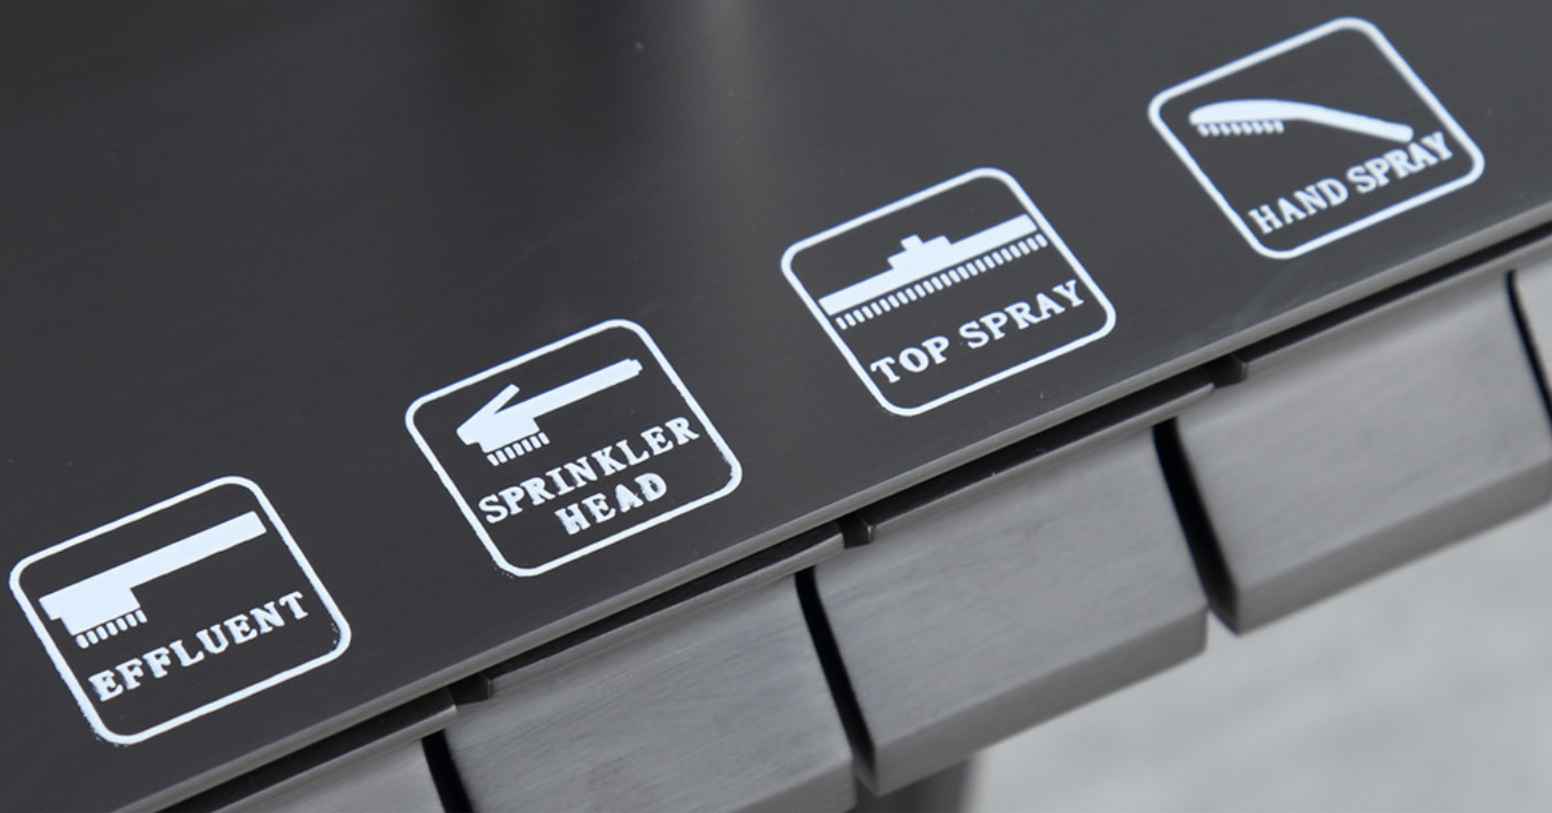

FOUR-MODE PIANO KEYS WATER OUTLET MODE IS CLEAR AT A GLANCE

MULTI-STAGE ADJUSTMENT CONTROL TO MEET DIFFERENT SHOWER NEEDS

ONE-HAND CONTROL AND FLEXIBLE SWITCHING

Principles of hydropower

LED digital display real-time water temperature

LED Digital Display

The principle of hydraulic power generation is that the water flow is generated by a built-in micro vortex generator, which does not need to be plugged in, only needs to open the water outlet switch, and the water temperature and time are displayed in real time.

UNIQUE COLD AND HOT SWITCH PRECISE TEMPERATURE ADJUSTMENT

SPORT-CLASS CONTROL TEXTURE, HUMANIZED DESIGN,
BATHING CAN ALSO BE VERY ADVANCED

Height, angle, free adjustment

Easy lifting without jamming, multi-angle height suitable for different people.
Give your family a thoughtful shower experience.

Concealed waterfall water outlet

Inspired by piano design, it is exquisite and beautiful,
Soft water outflow, convenient for living

A59 refined copper body casting Gun grey water plating process very textured

The water plating process with a strong sense of design is durable, High hardness, wear resistance, low friction coefficient and other advantages, Improve the luxurious texture and achieve the exquisite appearance of the shower.

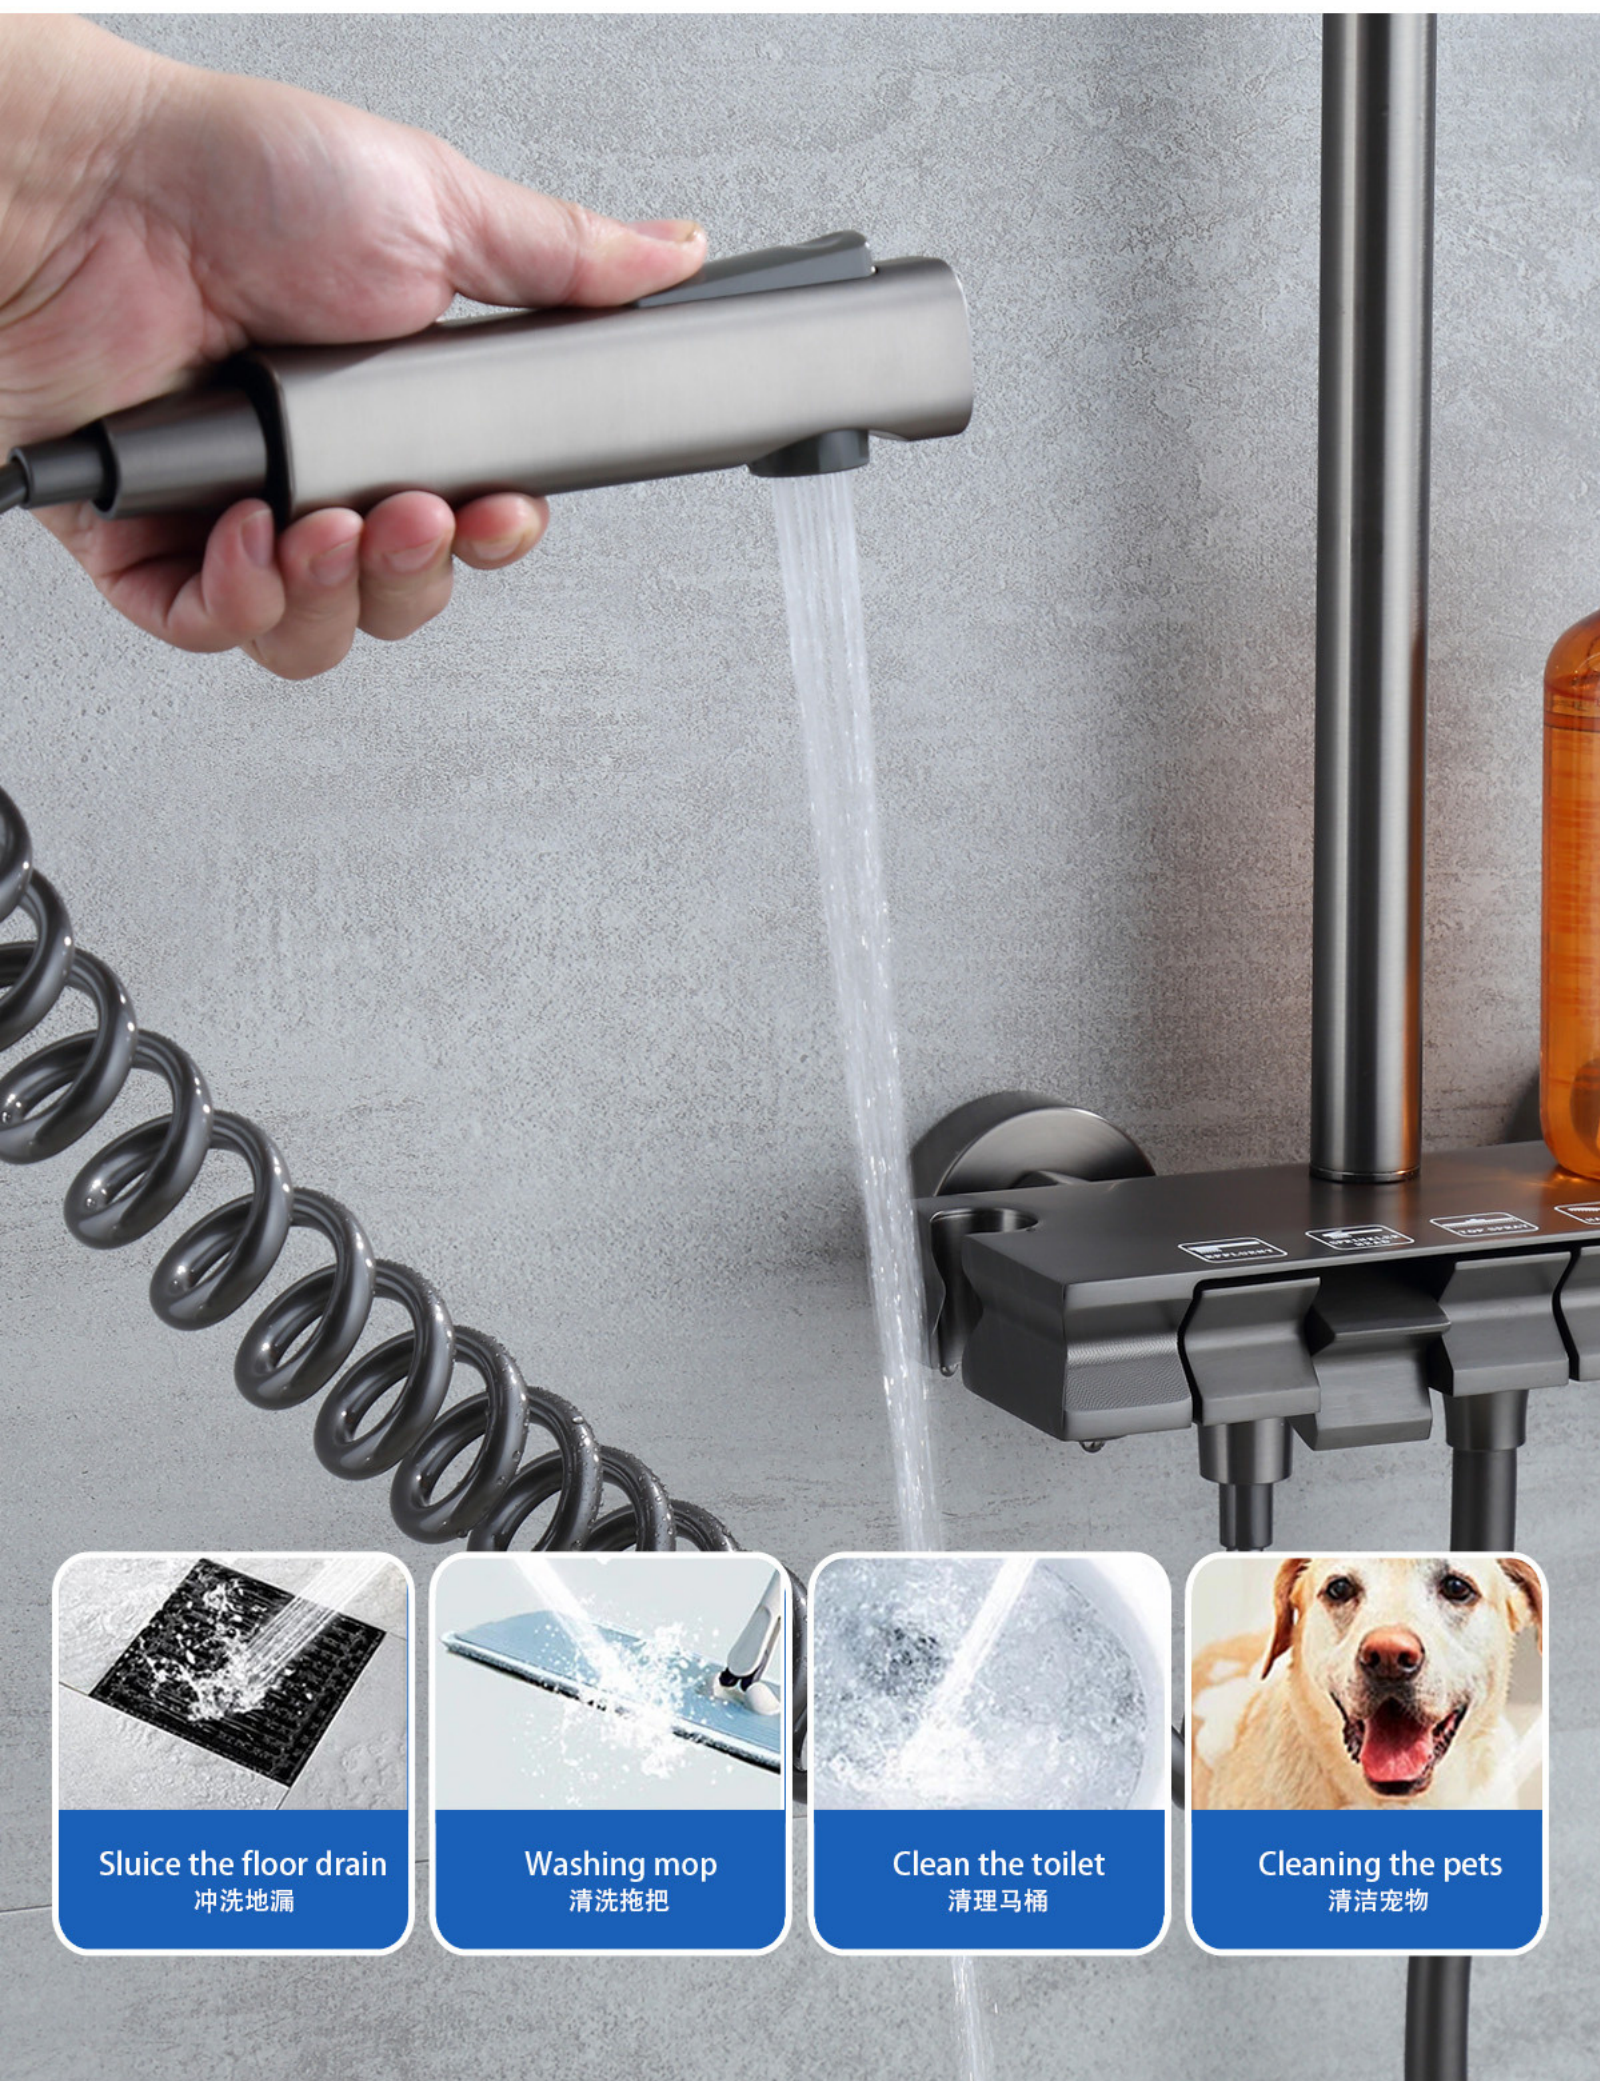

Seepage prevention and leakage prevention, smooth opening.

Multi-purpose sprayer

Aim at the stain to make the water flow out strongly, and the decontamination and cleaning can be easily done.

Sluice the floor drain
冲洗地漏

Washing mop
清洗拖把

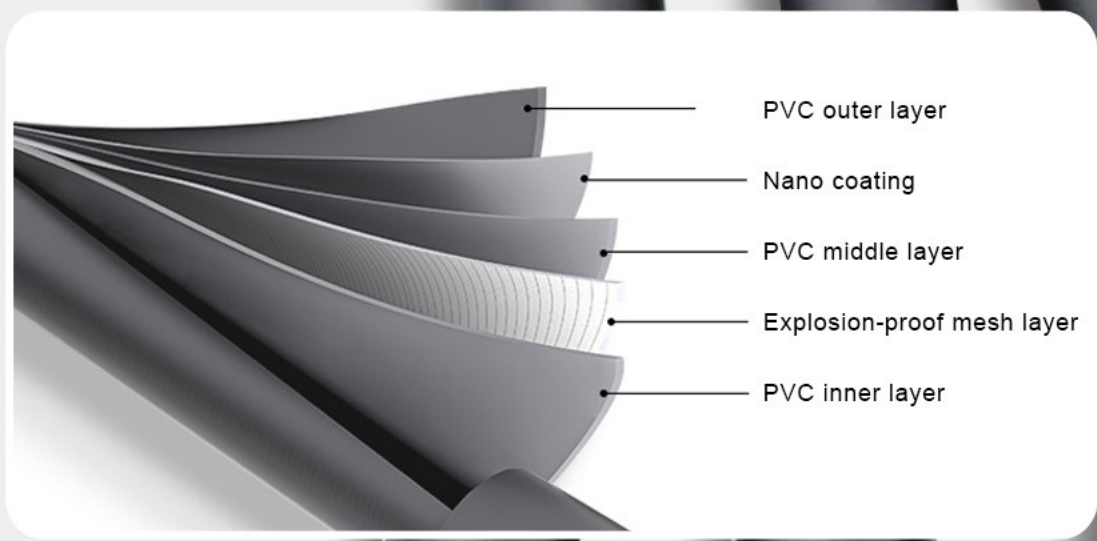

Clean the toilet
清理马桶

Cleaning the pets
清洁宠物

PVC gun grey anti-winding shower pipe

Anti-winding and anti-burst, can withstand high temperature and high pressure, and environment-friendly PVC is preferred. It is not easy to crack, and the quality is excellent, not afraid of the test of time.

Careful details/quality life

Shower tube assembly

Quality accessories, high standard shower tube, adjustable height and angle, convenient installation.

Quality shower hose

Explosion-proof PVC pipe, not easy to wind, comfortable to use.

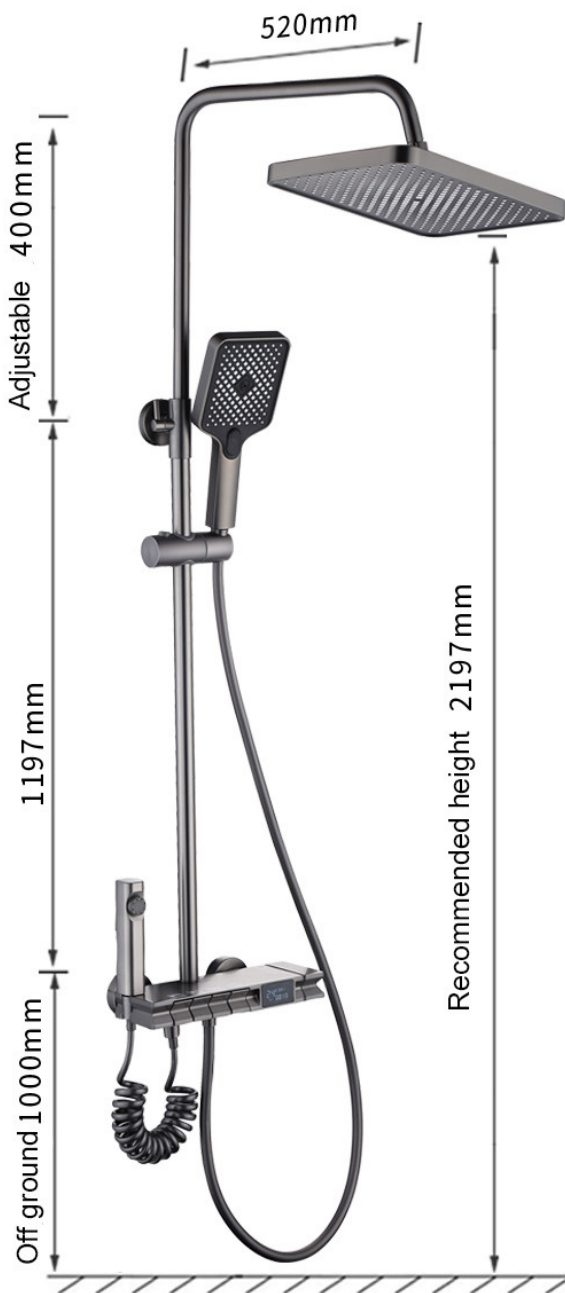

Faucet body weight 2051g

Selected high-quality brass body, perfect materials, main weight 2051g.

PRODUCT PARAMETERS

Name	Keys 4 modes shower
Material	Brass
Valve core	Ceramic valve core
Surface	Vacuum Plating
Weight	2051g
Installation	Wall-mounted
Distance	130-165mm

Note: The measured dimensions are for reference only, and the specific ones are subject to the actual products.
